TVA is submitting this letter in response to a request for clarification made by NRC-OIE Inspector S. Weise on September 13, 1984 concerning our August 31, 1984 response to D. M. Verrelli's letter dated July 18, 1984. In Part (A) Section 3, Corrective Steps Taken and Results Achieved of the subject letter, TVA had stated "The disposition of the cited welds was documented on February 3, 1984" Please note that although the cited welds were listed on an internal TVA memorandum on February 3, 1984, the revision of Nonconformance Report 1968, which documented the condition, was accomplished on July 12, 1984.

If you have any questions concerning this matter, please get in touch with R. H. Shell at FTS 858-2688.

Very truly yours,
