EVENT DESCRIPTION/CAUSE

HODO received a call at 6:05 pm (EST) from a Mr. Richard Wade. Mr. Wade's purpose in calling was to voice complaints about the qualifications of QA/QC inspectors employed by Johnson Controls at Perry. Mr. Wade said he is presently unemployed but was a former employ of Johnson Controls at Perry and was fired because his employer suspected him of being a spy for the NRC. He said Johnson Controls was bringing in QA/QC inspectors from the WWP project because they were friends of some Johnson Controls employees. He believes the people they have brought in do not have acceptable qualifications and would like the NRC to review the matter. Mr. Wade can be reached at home at /
