MEMORANDUM FOR: James R. Miller, Chief  
ORB-3, NRR

FROM: Eric H. Johnson, Chief  
RPB-1, RIV

SUBJECT: REQUEST FOR PUBLICATION IN MONTHLY FR NOTICE - NOTICE  
OF CONSIDERATION OF ISSUANCE OF AMENDMENT TO FACILITY  
OPERATING LICENSE AND PROPOSED NO SIGNIFICANT HAZARDS  
CONSIDERATION DETERMINATION AND OPPORTUNITY FOR A HEARING

Public Service Co. of Colorado, Docket No. 50-267, Fort St. Vrain Nuclear  
Generating Station, Platteville, Colorado

Date of amendment request: January 14, 1985

Description of amendment request: The proposed change to the Administrative Controls Technical Specifications (TS) reflects recent organizational changes within the Public Service Company of Colorado. The TS changes involve revising position titles (e.g., "Radiation Protection Manager" to "Support Services Manager" and "Manager, Production, Fuels and Services Division" to "Manager, Production Services Division"), the addition of a new position (Executive Staff Assistant) to the organizational chart and the corporate safety review committee membership, and changing the position to which the Training Supervisor reports.

Basis for proposed no significant hazards consideration determination:

The Commission has provided guidance concerning the application of these standards by providing certain examples (48 FR 14870). The examples of actions that are considered not likely to involve significant hazards

considerations include a purely administrative change to Technical Specifications: for example, a change to achieve consistency throughout the Technical Specifications, correction of an error, or a change in nomenclature. Based on an initial review of the application, the staff considers the proposed changes to be administrative changes of the type referred to above. Therefore, we propose to determine that this is an action which would involve no significant hazards considerations.
