ORDER

Our August 3, 1984 order informed the parties that we would review, sua sponte, the Licensing Board's July 2, 1984 initial decision, LBP-84-26. As part of that review, we note that the docket contains a letter dated July 17, 1984, from the applicants' counsel to the members of the Board below stating that the schedule for the emergency exercise for the Wolf Creek facility had been revised and the exercise is currently scheduled for November 7, 1984. In order that we may complete our review, the NRC staff shall provide us with the results of that exercise as soon as the information is available.

It is so ORDERED.
