EXEMPTION FROM PAYMENT OF APPLICATION FEE

Mallinckrodt, Inc. - (24-04206-05MD) - Fee Category 3B

Subject license was issued January 6, 1975, per licensee's October 8, 1974 letter, authorizing medical distribution of products pursuant to Section 32.72. An application fee was not charged because the licensee held an existing license (24-04206-01) under fee category 3A, which could have been amended to cover the above authorization. The Licensing staff preferred, for administrative convenience, to issue a separate "medical distribution" license rather than amend License 24-04206-01. Had an application fee been charged, the licensee could have requested, and Licensing could have amended, the -01 license in order to avoid payment of an application fee.
