Gentlemen:

This responds to your letter dated February 1, 1983 (REF:115), which requested an exemption from licensing fees for the University's NRC License No. 43-01884-01. The exemption request related to the University's authority to collect, store, repackage and transfer radioactive waste from the Veterans Administration Medical Center.

Based on the information provided in your letter, we believe it would be in the best interest of the University's program to exempt from fees that portion of the subject license which authorizes the conduct of waste disposal services for the Veterans Administration. Accordingly, and pursuant to §170.11(b)(1) of 10 CFR 170, the Commission hereby grants an exemption from fees in fee Category 4B for License No. 43-01884-01, having determined that such an exemption is authorized by law and is otherwise in the public interest. (The license, however, will be subject to fees for other authorized activities not related to the above waste disposal services, as appropriate).

Sincerely,

Original Signed by:  
Wm. O. Miller
