Docket: 50-298

OCT 19 1984

Nebraska Public Power District  
ATTN: J. M. Pilant, Manager, Technical  
Staff-Nuclear Power Group  
P.O. Box 499  
Columbus, Nebraska 68601

Gentlemen:

This letter is to provide special information concerning admittance of NRC contract personnel scheduled to visit the Cooper Nuclear Generating Station from October 22, 1984, through November 30, 1984, for the purpose of observing decontamination operations for their research program.

The contract personnel identified in the attached Special Enclosure will require unescorted and unrestricted access to the administrative offices, the protected areas, and vital areas (excluding CAS and SAS) in order to conduct their observations.

We request that a site orientation relevant to the issuance of badges, escort duties, and emergency evacuation be afforded those personnel listed, if such training has not previously been provided. Other NRC personnel may, at your option, be given a special indoctrination sufficient for them to have unescorted access to the protected area.

Should you have any questions concerning this matter, we will be happy to discuss them with you.

Sincerely,

Original Signed By  
Paul S. Check
