Renea Hicks, Esquire
Assistant Attorney General
Environmental Protection Division
P.O. Box 12548
Capitol Station
Austin, Texas 78711

Subj: Texas Utilities Electric Company (Comanche
Peak Steam Electric Station, Units 1 and 2);
Docket Nos. 50-445 and 50-446 C/L

Dear Renea:

This is to memorialize our discussion and agreement of October 18, 1984, concerning the treatment of proprietary information of Westinghouse and ITT-Grinnell to be provided to CASE under a protective agreement. As we discussed, the terms of the protective agreements CASE is to enter into with Westinghouse and ITT-Grinnell permit CASE to obtain and use the material in their answer (and subsequent pleadings on the subject, if necessary) to Applicants' motion for summary disposition regarding design quality assurance. If CASE decides to employ that material it is to be marked "Proprietary Information - For Eyes Only" and included only in the copies of CASE's pleadings provided to the Licensing Board, NRC Staff Counsel and Counsel for the State of Texas.

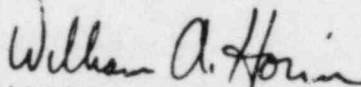

As we agreed, if it should become necessary to disclose such proprietary material to persons other than Counsel for the State of Texas you will notify me at least five days before doing so in order for Westinghouse and/or ITT-Grinnell to be given an opportunity to decide whether further action to protect such proprietary material is warranted. If Westinghouse or ITT-Grinnell determines that further action is necessary you will be notified and will withhold disclosure of that material until they have had a reasonable opportunity to take such action.
