MEMORANDUM FOR: Richard E. Cunningham, Director  
Division of Fuel Cycle and Material Safety

Robert F. Burnett, Director  
Division of Safeguards

Robert E. Browning, Director  
Division of Waste Management

FROM: R. S. Brown, Jr., Assistant to the  
Director and Chief  
Program Support Branch, NMSS

SUBJECT: IMPLEMENTATION OF NEW LICENSE FEE SCHEDULE

On June 20, 1984, the revised license fee rule became effective. Based on discussions with the License Fee Management Branch, the following are the major changes which require immediate action by NMSS:

1. The "date received" entered into the PPSAS casework system should be the postmark date on the envelope containing the application.
2. Transportation quality assurance program reviews postmarked June 20, 1984 and after are now subject to license fees. Therefore, these must be entered into the PPSAS casework system.
3. Field flooding tracer study cases are now subject to full cost recovery. Therefore, these must be entered into the PPSAS casework system.

The program support staff would like to discuss these new procedures with the appropriate staff in your Division. Please identify the staff involved in the above activities by June 25.

We understand that the License Fee Management Branch is currently developing procedures for the new fee schedule. Once these are available, we will modify our PPSAS procedures and inform all NMSS employees of their responsibilities regarding license fees.

If you have any questions, please contact Claudia Seelig on ext. 74072.
