Dr. Harold R. Denton  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dr. Denton:

You may remember I corresponded with you relative to earthquakes at Limerick, as well as blasting at the adjacent quarry as it might affect concrete setting and integrity.

I have noted lately that Philadelphia Electric has repeatedly asked for exceptions to specified safety items required by 10CFR50, Appendix D, including the enclosed Sept. 21, 1984 example.

Please withhold exception requested in Sept. 21, 1984 letter until Applicant answers questions I have noted on margins of enclosed letter.

Very truly yours,  
AIR & WATER POLLUTION PATROL
