Mr. J. T. Beckham, Jr.
Vice President - Nuclear Generation
Georgia Power Company
P. O. Box 4545
Atlanta, Georgia 30302

Dear Mr. Beckham:

The NRC Policy for handling allegations requires that licensees be advised of potential safety concerns raised by allegations. Accordingly, we wish to inform Georgia Power Company that an allegation on Hatch has been received and is being reviewed by the staff. The concern is a statement received by the NRC which alleges that Georgia Power is not complying with the requirements of Section XI of the ASME Boiler and Pressure Vessel Code in that an authorized nuclear inspector is not being used for weld repair activities. The NRC requires compliance with the Section XI requirements regarding the use of an authorized nuclear inspector. Please review your implementation of the Section XI requirements and advise us as to your use an authorized nuclear inspector.

Sincerely,
*ORIGINAL SIGNED BY
