Docket No.: 50-445

COMANCHE PEAK STEAM ELECTRIC STATION
QUALIFICATION OF MAIN STEAM RELIEF VALVES
QA FILE: CP-84-16, SDAR-140
FILE NO.: 10110

Dear Mr. Hunter:

On July 10, 1984 we verbally notified your Mr. D. Hunnicutt of a deficiency regarding several main steam relief valves that may not be qualified for actual loading conditions. We have submitted interim reports logged TXX-4250 and TXX-4291 dated August 8, 1984 and August 30, 1984.

We have completed our investigation and concluded that the matter is not reportable under 10CFR50.55(e). Records supporting this determination are available for your inspector's review at the CPSES site.

Very truly yours,

A handwritten signature in cursive script that reads "Billy R. Clements".
