and Chief
Program Support Branch, NMSS

SUBJECT: LICENSE FEE CONTRACT COSTS

In preparation for implementation of the new license fee schedule, NMSS must request modifications to non-DOE contracts that are for license fee-recoverable projects. In order to support the new fee schedule, contractors must provide a License Fee Recovery Cost Report monthly which provides detailed cost information by case. DOE projects will be subject to the new license fee reporting requirements which are specified in draft Manual Chapter 1102.

Please provide a list of all DOE and non-DOE FIN numbers that cover license fee-recoverable projects. Indicate on the list whether the entire FIN covers fee-recoverable projects or if it also contains non-fee work. Under proposed Manual Chapter 1102, a FIN for DOE work cannot contain both fee-chargable and non-fee-chargable work. PSB will then request Division of Contracts to add the new reporting requirements. If any DOE FINs contain both fee-recoverable and non-fee-recoverable work, PSB will have to work with the project manager to separate the work and assign a new FIN number.

Please provide your list to PSB by April 4 so that modifications can be made prior to the May 1 expected implementation date for the new fee schedule. If you have any questions, please contact Eleni Davis on X74072.
