This refers to the routine safety inspection conducted by Mr. H. Kerch of this office on June 25 - July 20, 1984, at Limerick Nuclear Generating Station, Limerick, Pennsylvania, of activities authorized by NRC License No. CPPR-106 and to the discussions of our findings held by Mr. Kerch with Mr. J. Corcoran of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendices A and B.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter.
