REFUELING PLATFORM MAST REPLACEMENT
(NRC TAC NO. 82846)

Gentlemen:

By letter dated September 4, 1992 (Serial No. NLS-92-141), Carolina Power & Light Company (CP&L) submitted typed Technical Specification pages pertaining to the Company's February 21, 1992 license amendment application. During a September 30, 1992 telephone conversation between Mr. Bill Murray (CP&L) and Mr. Mike Webb (NRC), CP&L was requested to resubmit typed Technical Specification pages consistent with the proposed change described in Enclosure 1 of our February 21, 1992 license amendment application. The enclosed typed Technical Specification pages delete the "≤" reference included with the 1600 pound and 750 pound load values specified in Specifications 4.9.6.a and 4.9.6.b, respectively. The typed Unit 1 and Unit 2 Technical Specification pages are provided herein as Enclosures 1 and 2, respectively. The Technical Specification pages provided herein supersede those in CP&L's letter of September 4, 1992.

Please refer any questions regarding this submittal to Mr. D. B. Waters at (919) 546-2710.

Yours very truly,

R. B. Starkey, Jr.

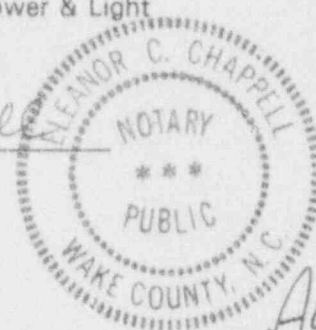

WRM/wrm (rfmast4.wpf)

Enclosures

R. B. Starkey, Jr., having been first duly sworn, did depose and say that the information contained herein is true and correct to the best of his information, knowledge and belief; and the sources of his information are officers, employees, contractors, and agents of Carolina Power & Light Company.

Eleanor C. Chappell
