Gentlemen:

CALLAWAY PLANT
DOCKET NUMBER 50-483
REVISION TO TECHNICAL SPECIFICATION 6.2,
"ORGANIZATION"

Union Electric Company herewith transmits an application for amendment to Facility Operating License Number NPF-30 for the Callaway Plant. This amendment application requests a revision to Technical Specification 6.2.2.g to delete the phrase "or the Assistant Superintendent, Operations". The Assistant Superintendent, Operations position has been eliminated.

This change does not reduce the overall base of experience nor the commitment to minimum qualifications. The duties, reporting relationships, and approval responsibilities are not altered by this change.

The Callaway Plant On-Site Review Committee and the Nuclear Safety Review Board have reviewed and approved this amendment application. Attachments 1 through 4 provide the Technical Specification changes, Safety Evaluation, Significant Hazards Evaluation, and Environmental Consideration, respectively. It has been determined that this amendment application does not involve any unreviewed safety question as defined in 10CFR50.59 nor a significant hazard consideration as determined per 10CFR50.92.

If you have any questions on this amendment application, please contact us

Very truly yours,

Donald F. Schnell
