

JUN 30 1983

MEMORANDUM FOR: Files

THRU: William O. Miller, Chief, License Fee Management Branch, ADM

FROM: Douglas Weiss, License Fee Management Branch, ADM

SUBJECT: PROPOSED FEE CATEGORY 9 OF SECTION 170.31

On June 20, 1983, Steve Baggett, NMSS, met with Glenda Jackson and me concerning proposed fee Category 9 "Device, Product or Sealed Source Safety Evaluation." He stated that, when their staff reviewed the proposed fee schedule, Bernard Singer indicated that the category should be expanded to include "custom" sealed source and device reviews. Steve delivered a memo to LFMB dated June 20, 1983, which outlined their staff's proposed changes to Category 9. Two new categories (9B and 9D) were recommended along with revisions to the footnotes in 170.31. Glenda and I determined that the proposed changes would adequately cover fees for licenses authorizing distribution to "specific", "exempt", and "general" licensees, and applications for sealed source or device reviews. Our discussions with Steve led to further refining the fee categories and subsequently deleting proposed footnotes 5 and 6 of 170.31 and establishing a new Footnote 7 for fee Category 9. Glenda and I discussed the changes with Bill Miller on June 21, 1983, and the changes will be incorporated into the final rule. Glenda confirmed in a telephone conversation on June 21 with Bernard Singer, Earl Wright, Steve Baggett, Nate Bassin and John Hickey, that the proposed fees in Categories 3H, 3I, 3J and 3K would not change as a result of the revisions to Category 9.
