

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

Docket Nos.: 50-440
and 50-441

Mr. Murray R. Edelman
Vice President - Nuclear Group
The Cleveland Electric Illuminating Company
P. O. Box 5000
Cleveland, Ohio 44101

Dear Mr. Edelman:

Subject: Errors in the Numbering of Series 480 Containment
Issues Related Questions for the Perry Nuclear Power
Plant (Units 1 and 2)

We have found errors in the numbering we have assigned to the series 480 Questions in our requests for additional information pertaining to containment related issues. A letter to D. R. Davidson dated September 16, 1982, requested responses to Questions 480.49 through 480.67. However, subsequent requests seem to have incorrectly repeated some of those numbered questions, although the questions were different. For example, my letter to you dated March 30, 1984, requested that you respond to Question 480.52; my letter to you dated May 30, 1984 requested a response to Question 480.54; my letter to you dated August 30, 1984 requested responses to Question 480.55 through 480.57.

Your assistance is sought in helping us correct these errors and ensure proper and correct documentation of your responses to these questions in the FSAR. As we see it, all question response requests since the September 16, 1982 letter should sequentially follow Question 480.67.

We also note that our records do not indicate that you have responded to any of these questions, except for Question 480.54 incorrectly numbered in my May 30, 1984 letter. You should advise the correct number for this question after you have determined the correct numbering sequence.

If there are any questions, please have your staff contact the Perry Project Manager, John J. Stefano at (301) 492-7037.

Sincerely,
