

OCT 17 1984

The Honorable Charles Wilson
United States House of Representatives
Washington, D. C. 20515

Dear Congressman Wilson:

We welcomed your participation in the September 13, 1984, meeting on the resumption of the safety and environmental operating license review for the South Texas Nuclear Project.

Regarding your concern about the staff's timely reviews, you have my assurances that the NRC is proceeding with the South Texas Project safety and environmental operating licensing review consistent with meeting the licensing schedule in the current NRC report to Congressman Beville. This schedule is consistent with the applicant's forecasted construction completion date of December 1986.

Sincerely,

(Signed) William J. Dircks

William J. Dircks
Executive Director for Operations
