Docket No. 50-288

DO NOT REMOVE

Reed College  
ATTN: Mr. L. B. Church, Director  
Reactor Facility  
Portland, Oregon 97202

Gentlemen:

The Commission has issued the enclosed Amendment No. 3 to Facility License No. R-112 for your TRIGA Mark I reactor in response to your request dated March 9, 1977, and staff discussions.

This amendment updates paragraph 3.B, "Technical Specifications," of your license to reflect the last two Technical Specification changes which were approved by the Commission but which were omitted from this paragraph. Since the amendment applies only to an administrative correction, it does not involve significant new safety information of a type not considered by a previous Commission safety review of the facility. It does not involve a significant increase in the probability or consequences of an accident, does not involve a significant decrease in a safety margin, and therefore does not involve a significant hazards consideration. We have also concluded that there is reasonable assurance that the health and safety of the public will not be endangered by this action.

We have determined that the amendment involves an action which has no environmental impact and pursuant to 10 CFR 51.5(d)(4) that an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

Your March 9, 1977 letter also expressed a concern about paragraph 3.C. of your license. Amendment No. 1 to Facility License No. R-112, issued on October 3, 1972, deleted this paragraph from the license.

Sincerely,

Robert W. Reid, Chief  
Operating Reactors Branch #4  
Division of Operating Reactors
