COMANCHE PEAK STEAM ELECTRIC STATION
VENTILATION EXHAUST DAMPERS
QA FILE: CP-84-27, SDAR-152
FILE NO.: 10110

Dear Mr. Hunter:

On September 13, 1984 we verbally notified your Mr. D. Hunnicutt of a deficiency regarding ventilation exhaust dampers that have been observed to be designed/installed to fail closed which would divert radioactive releases to rooms in which reactor action is required.

We are continuing our evaluation and anticipate completion by November 20, 1984.

Very truly yours,

Billy R. Clements
