MEMORANDUM FOR: Kathleen Hamill, Director  
DRMA, Region V

FROM: Elliott A. Greher, Program Analyst  
Program Support and Analysis Staff  
Office of Inspection and Enforcement

SUBJECT: PROFESSIONAL STAFF EFFORT FOR WPPSS UNIT 2.

I have reviewed the data recorded on MPS and have determined that IE employees (HQS and TTC staff, and those PAT staff located in regional offices) did record some routine inspection efforts devoted to WPPSS Unit 2 (docket #50-297), during the period 03/19/73 thru 12/20/83. These efforts are detailed below. (IE employees also devoted considerable efforts to a Construction Appraisal Team (CAT) inspection from May thru July of 1983, devoted effort to license reviews during the period from December 1982 thru October 1983, and devoted efforts to other activities. These will be separately reported to the License Fee Management Branch.)

Week Ending 10/01/83

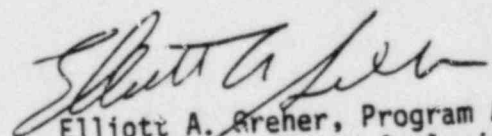

8.0 regular hours for activity code SRD, support to regional offices--may not be fee billable.

Week Ending 07/02/83

40.0 regular hours of routine inspection by staff in IE's Section "B", Emergency Preparedness Branch.

IE's contract specialist reviewed the available contract files and could find no records of any contractor costs expended in support of routine inspection at WPPSS, Unit 2 during this time period. During this time period we did not keep records of consultant costs devoted to regional routine inspection for specific licensees, and it is highly unlikely there were any.

I am providing this information to assist you in responding to William Miller's memo of 01/04/84.
