## General Comment

I didn't think I could be shocked anymore by what the trump administration does. For the past 3 1/2 years I have watched trump do everything he can to destroy what made us such a great nation, including rolling back EPA rules for clean air and water. And Now this. What the hell is wrong with you people? Seriously, what the hell are you even thinking, doing this in local communities and regular waste sites? Are you insane? Are you that hungry for money you would poison every inch of this country? Or- more likely- you simply do not give a damn. I doubt anything I say will make a damn bit of difference to men and women like you- no morals, no ethics, no conscience, no common sense or sense of decency. No regard for the people, let alone the planet. You make us sick- literally and figuratively. And to pull this garbage during the pandemic? It doesn't get lower than that. I would say you should be ashamed but it's obvious shame is far beyond your ken. What a tragedy you and trump have made of what was once the greatest country in the world, and once a shining beacon. Stick a fork in us, you bastards. You finished us.
