1. IMC 2505	01/06/17	IMC 2505	04/15/20
2. TI 2515/194	10/31/17	TI 2515/194 Rev 1	04/15/20
3.			

TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 2505, "Periodic Assessment of Construction Inspection Program Results," has been revised to incorporate language supporting new organizational oversight structure (VPO, VRG, etc.) into existing assessment functions. It also deletes a reference to perform a semiannual CAP trend review.

TI 2515/194 Revision 1, "Inspection of the Licensees' Implementation of Industry Initiative Associated with the Open Phase Condition Design Vulnerabilities in Electric Power Systems (NRC Bulletin 2012 01)," has been revised to expand scope to include all plants. Incorporated guidance for inspecting manual action (i.e. risk-informed) approach consistent with VII, Revision 3. Removed data-gathering instructions (section 03.02) and Table 1 since the HQ staff completed this one-time activity for VII verification effort.
