ILLINOIS POWER COMPANY

CLINTON POWER STATION, P.O. BOX 678, CLINTON, ILLINOIS 61727

October 11, 1984

Docket No. 50-461

Mr. James L. Milhoan
Section Chief, Licensing Section
Quality Assurance Branch
Office of Inspection and Enforcement
Mail Stop EWS-305A
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Milhoan:

In Attachment 1 of Illinois Power's May 31, 1984, letter to the Nuclear Regulatory Commission, we identified a number of reviews that had been performed relating to the design of the Clinton Power Station (Clinton). Those reviews are, of course, available to Bechtel for such use as it is deemed appropriate in the conduct of the Independent Design Review of Clinton.

At our request, Sargent and Lundy (S&L) has performed an analysis of the following independent reviews of S&L design activities as they apply to Clinton: the INPO review of Clinton, the Teledyne Independent Design Review of LaSalle Unit 1, the NRC Integrated Design Inspection of Byron Unit 1, and the Cygna Independent Design Verification of Fermi Unit 2. That analysis was completed and provided to us on October 10, 1984. As in the case of the reviews mentioned in our May 31, 1984 letter, this S&L analysis is available to Bechtel for use as it deems appropriate.

Sincerely yours,

D. P. Hall
Vice President
