Dear Mr. Utley:

SUBJECT: MASONRY WALL DESIGN, IE BULLETIN 80-11

Re: Brunswick Steam Electric Plant, Units 1 and 2

On May 8, 1980 we issued IE Bulletin 80-11. We have reviewed your responses as listed on page 18 of the Technical Evaluation Report (TER), attached to the enclosed Safety Evaluation (SE). In addition, we have reviewed your response dated December 21, 1984. Based on our review, we find that the proposed modifications are in compliance with the staff acceptance criteria. We find the schedule for completion of the fix designs proposed in your letter to be acceptable. We are aware that the schedule for the actual modification work will be worked out in your 5-year program for the Brunswick plant.

This concludes our review of your response to IE Bulletin 80-11.

Sincerely,

Original signed by/
