SECTION 3
FITNESS FOR DUTY PROGRAM
PERFORMANCE DATA

- 1) The Fermi 2 testing rate in the Random Test Program for 1995 was 62% (average pool size was 1431, total tested was 886).
- 2) Detroit Edison does not have an on-site testing facility but transports specimens to a laboratory certified by the Department of Health and Human Services.

REPORTS MADE UNDER 10CFR26.73

There were no reports submitted during this time period.

TESTING RESULTS

There were five (5) individuals who tested positive for the period ending December 31, 1995. The positive tests were categorized as follows:

Pre-Access Testing

One (1) contract employee tested positive. The individual tested positive for marijuana. The individual was denied access.

For-Cause Testing

A total of three (3) contract employees tested positive. All three (3) employees tested positive for alcohol. One (1) person was tested when the odor of alcohol was detected by the individual's supervisor. One (1) person was tested when they were observed sleeping in a break room by a site supervisor. One (1) person was tested when the odor of alcohol was detected by a site employee. A review of all three individuals work activities was performed and no deficient work practices which could impact safety-related equipment/systems were identified. Access privileges were revoked for all three individuals.

Random Testing

There was one (1) licensee employee who tested positive for alcohol. The individual was a system engineer. A review of the individual's work activities was performed and no deficient work practices which could impact safety-related equipment/systems was identified. The individual was referred to the Employee Assistance Program (EAP). Sanctions were imposed and access was restored.

Follow-Up Testing

There were no positive tests in this category during this time period.

SUMMARY OF MANAGEMENT ACTIONS

There was one (1) appeal received during this time period. The appeal was reviewed by the appropriate levels of management and upheld as originally ruled.

There were no Deviation Event Reports (DER) written requiring management actions for failing to meet 10CFR26.
