

STATEMENT

PLACE: [REDACTED]

DATE: 5-3-83

I, Denny Keith Grisso, hereby make the following voluntary statement to H. Brooks GRIFFIN who has identified himself to me as an Investigator with the U. S. Nuclear Regulatory Commission. I make this statement freely with no threats or promises of reward having been made to me.

I am presently employed as a cable tray supports fitter for Brown & Root at the Comanche Peak Steam Electric Station, and have been employed by Brown & Root for about five years.

During the latter part of 1978 and the first part of 1979, I worked on a core drill crew for Robert Messerly, the Foreman. We^{do} used Flex drills and "rebar eater" bits to drill holes in concrete for Hilti Quick Bolts. During the time I worked for Messerly I never drilled holes through rebar without proper ~~Document Change~~ Authorizations, ^(DCA) nor do I know of any crew members who made improper cuts through rebar.

Later I became foreman over a crew that also used rebar eaters, and I do not know of any unauthorized cuts made through rebar.

To my knowledge crew members always obtain DCAs before making the cuts. Rebar Cut Requests were written out describing the rebar

make cut ... came to the location and evaluated the rebar. If they approved the cut, a DCA was issued and the cut was made.

I do not know of any Brown & Root supervisors who authorized improper cuts through rebar, nor do I know of any rebar cutters loaned out to personnel ^{used to make} which made improper cuts.

I heard about the allegations regarding unauthorized cuts through rebar from a newspaper article. I do not have any personal knowledge of unauthorized cuts through rebar.

I have read the foregoing statement consisting of 2 handwritten/~~typed~~ pages. I have made and initialed any necessary corrections and have signed my name in ink in the margin of each page. I swear that the foregoing statement is true and correct. Signed on 5-3-83 at 1:55 AM
