

Statement of  
Nathan Dyer Hammett, Jr.

My name is Nathan Hammett, and I have been employed ~~by~~<sup>at</sup> by Brown & Root, the contractor at Comanche Peak, since the fall of 1978 except for a three month period in 1979.

I was promoted the Foreman's job over a pipe hanger support crew in January of 1979. My crew installed supports and one of the places my crew worked was the service water ~~intake~~<sup>intake</sup> tunnel. My crew used Hilti drills to drill holes in the concrete. If we hit rebar we attempted to relocate the holes to miss the rebar. If we could not relocate, we would request a Component Modification Change from the Gibbs & Hill-Engineers. The cuts through rebar were always made by Robert Messerly's crew, because they had the proper drill to cut the rebar.

My crew did not ever use the drill to cut the rebar. My crew only had to fill in any holes we had drilled to try and get around the rebar unless the holes were too deep. My crew never borrowed or used the rebar drills, and I do not know of any rebar cut without the proper Component Modification Change received.

I have read the foregoing statement consisting of 1 handwritten/  
~~typed~~ pages. I have made and initialed any necessary corrections and have signed my name in ink in the margin of each page. I swear that the foregoing statement is true and correct. Signed on 5-3-83 at 3:40pm
