

Docket No. 50-13
and 50-99

FEB 8 1985

Babcock & Wilcox Company
ATTN: Mr. A. F. Olsen
Senior Licensing Administrator
Post Office Box 1260
Lynchburg, Virginia 24505

Gentlemen:

With the Reactor Security Plan revisions submitted by your letter dated January 26, 1982, your Company remitted a Class II fee of \$600 pursuant to 10 CFR 170.22 of the March 23, 1978 regulations. The Division of Licensing (DL) staff has informed us that these revisions did not decrease the effectiveness of the previously approved plan and, therefore, do not require a license amendment. Consequently, the January 26 submittal is not subject to the fee requirements of 10 CFR 170. On this basis, we are concurrently requesting the NRC's Division of Accounting and Finance to refund the sum of \$600 to your Company. Refunds are generally processed within a two-week period.

We regret the delay in notifying you of this matter and making the refund.

Sincerely,

Original Signed by
Wm. O. Miller

William O. Miller, Chief
