 Vice President and General Counsel

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and thereafter at six-month intervals or when the review is completed, whichever is earlier. The first bill for the operating license (OL) review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Limerick 1 and Limerick 2 OL application reviews for the period specified above. The cost through that period is \$4,256,592 for Limerick 1 and \$705,974 for Limerick 2. The cost of the OL review for Limerick 1 exceeds the fee of \$3,077,400 that may be assessed in accordance with 10 CFR 17J.21 (Footnote 2). Since your Company received an operating license (5% power) for Limerick 1 on October 26, 1984, \$3,077,400 is the amount that may be assessed for the

Enclosed is a copy of the revision to Part 170 as sent to all applicants and licensees on May 24, 1984.
