COMANCHE PEAK STEAM ELECTRIC STATION  
VENTILATION EXHAUST DAMPERS  
QA FILE: CP-84-27, SDAR-152  
FILE NO.: 10110

Dear Mr. Hunter:

On September 13, 1984 we verbally notified your Mr. D. Hunnicutt of a deficiency regarding ventilation exhaust dampers that have been observed to be designed/installed to fail closed which would divert radioactive releases to rooms in which operator action is required. We have submitted interim reports logged TXX-4333 and TXX-4365, TXX-4379 dated October 12, 1984 and November 20, 1984, December 17, 1984, respectively.

We are continuing our evaluation and anticipate completion by March 7, 1985.

Very truly yours,
