

Official Record Copy

SEP 19 1984

Duke Power Company
ATTN: Mr. H. B. Tucker, Vice President
Nuclear Production Department
422 South Church Street
Charlotte, NC 28242

Gentlemen:

SUBJECT: FEMA INTERIM FINDINGS ON OFFSITE RADIOLOGICAL EMERGENCY RESPONSE
PREPAREDNESS (RERP) FOR THE CATAWBA NUCLEAR STATION

Please find enclosed for your information, a copy of the FEMA Interim Findings on Offsite Radiological Emergency Response Preparedness (RERP) for the Catawba Nuclear Station Exercise conducted on February 15-16, 1984. The Interim Findings include comments by the States of North and South Carolina on the Regional Assistance Committee's informal evaluation of the Catawba Offsite Radiological Emergency Response Plans (January 1984 Revision).

We encourage you to continue to work with the States and local governments to maintain an adequate level of offsite Emergency Preparedness around the Catawba Nuclear Station.

If you have any questions on this matter, please let us know.

Sincerely,

H. C. Dance, Chief
Projects Branch 2
Division of Reactor Projects
