SUBJECT: Arkansas Nuclear One - Units 1 & 2
Docket Nos. 50-313 and 50-368
License Nos. DPR-51 and NPF-6
Request for Additional Fee for
Technical Specification Change Request -
Leak Testing of Sealed Radioactive Sources
Installation In Radioactive Systems

Gentlemen:

By letter (ØCANØ983Ø1) dated September 14, 1983, AP&L submitted a proposed change request to the Arkansas Nuclear One - Units 1&2 Technical Specifications, Sections 4.14 and 3/4.7.9, for your review and approval. We determined that submittal to be a Class II Amendment; and, accordingly, a check in the amount of \$1,600 (\$1,200-first unit and \$400-second unit) was remitted.

However, by letter (ØCNA128421) dated December 31, 1984, an additional fee of \$2,800 for the review of our September 14, 1983, application was requested. Your review of our application concluded that a Class III fee of \$4,400 (\$4,000-first unit and \$400-second unit) was appropriate in lieu of the Class II fee (\$1,600) which was remitted, since your review involved consideration of a single safety issue. Accordingly, a check in the amount of \$2,800 is enclosed to bring the total fee remitted to \$4,400 for the review our September 14, 1983, application.

Sincerely,

J. Ted Enos
