FREEDOM OF INFORMATION
ACT REQUEST

FOIA-95-258
Rec'd. 6-12-95

Re: Freedom of Information request

Dear Sir or Madam:

Pursuant to the Freedom of Information Act, I would like copies of the following:

--All correspondence in your files between the former Atomic Energy Commission and General Electric pertaining to GE's work on the Oyster Creek nuclear plant between the years 1963 and 1975.

--Any documents in your files such as memos, reports, etc., directly relating to the above correspondence during the same time period.

Neither of these requests pertains to documents that are already in the Public Document Room in the Oyster Creek 1 file or released in previous FOIA requests. I am looking for documents pertaining to GE's work as the Oyster Creek reactor/plant builder, especially those pertaining to GE's efforts to resolve AEC concerns about problems discovered in the Oyster Creek plant around 1969.

Pursuant to the Freedom of Information Act, I also request "Representative of the News Media" status, which entitles me to a waiver of search fees and 100 pages of free copying. These documents will be used in preparation of a book I am writing on the history of General Public Utilities Corp., owner of the Oyster Creek nuclear plant.

9509780040 3pp.

I am the author of one previous book, *Unseen Danger: A Tragedy of People, Government and the Centralia Mine Fire*. It was published in 1986 by the University of Pennsylvania Press. A copy of a review of my first book in the *New York Times* is enclosed.

Thank you for your attention to this request.

Sincerely,

David DeKok
