

Docket No. 50-219

JUL 02 1979

Jersey Central Power and Light Company  
ATTN: Mr. Ivan R. Finrock, Jr.  
Vice President  
Madison Avenue at Punch Bowl Road  
Morristown, New Jersey 07960

Gentlemen:

This letter is to provide update information concerning access of NRC Region I personnel to your facilities. Reference is made to our letter of February 28, 1979.

Enclosure 1 indicates those NRC Region I personnel for whom permanent non-employee, no escort required, picture badges as authorized by 10 CFR 73.55(d)(5), are requested for prompt access to all protected and vital plant areas. Those NRC Region I personnel listed on Enclosure 2 are requested to be badged for unescorted access in the protected area.

The NRC Region I inspectors identified in Enclosures 1 and 2 have completed NRC indoctrination in radiological protection, emergency response and security training comparable to that furnished by you to regular site employees granted unescorted access. Any additional training provided by you to these inspectors should be limited to site specified matters required for the inspector's safety.

The enclosures to this letter are effective upon receipt and expire on December 31, 1979. These enclosures supercede all previous lists requesting NRC inspector unescorted access.

Should you have any questions concerning this matter, we will be happy to discuss them with you.

Sincerely,

Boyce H. Grier  
Director

Enclosures: As stated

ENCLOSURE 1

This certifies that the persons listed below are employees of the U.S. Nuclear Regulatory Commission. To the extent of our knowledge, these persons do not possess adverse character traits or indications of aberrant behavior. These employees have been screened to the national level and their trustworthiness has been determined by a review of the individual's employment records. Based on the above, it is requested that these employees be granted unescorted access to protected and Type I and Type II vital areas of your facility.
