FREEDOM OF INFORMATION REQUEST

Mr. John L. Patten
Director, Penna. Emerg. Mgmt. Agency
Box 2221, Harrisburg, Pa. 17105

February 9, 1985

DOCKETED
FEB 13, 1985

Dear Mr. Patten,

DOCKET NUMBER 50-352 CC
PROC & UTIL. PROC. 50-353 CC

I am writing as an intervenor in the Limerick nuclear plant licensing proceedings before the U.S. Nuclear Regulatory Commission, on behalf of myself and Friends of the Earth in the Delaware Valley.

In the process of the recent hearings before the Atomic Safety and Licensing Board on emergency planning in case of a nuclear emergency at the plant, the evidence and testimony which was presented did not disclose how the Plume Exposure Emergency Planning Zone (EPZ) was originally set up and on what basis the boundaries were established. Of special interest to us in following up our contention on the protection of visitors to Valley Forge National Park in case of a nuclear emergency, is the provision of plans for the Park. As you are aware, I expect, the Park was excluded from the EPZ in spite of the fact that a part of the Park is less than 10 miles from the plant. It is essential for us in fulfilling our obligations as an intervenor and in pursuing our appeal rights to have this information.

We, therefore, under the provisions of the Freedom of Information Act, 5 USC 552, respectfully request that you make available to us all correspondence, notes of conversations, drawings, notes and every matter in your possession having anything to do with the establishing of the EPZ for PECO's Limerick plant and the process and steps in setting the boundaries for the EPZ, including the governmental entities excluded from the EPZ, such as Valley Forge Park but not limited to the Park.

We will appreciate your expeditious attention to this matter. My home telephone is 215 566-4289.

Respectfully yours,

Robert L. Anthony
