Docket No. 50-271

Vermont Yankee Nuclear Power Corporation
 ATTN: Mr. J. B. Sinclair
 Licensing Engineer
 1671 Worcester Road
 Framingham, Massachusetts 01701

Gentlemen:

By letter dated August 1, 1984, the Division of Licensing (DL) staff informed your Corporation of their approval of your application dated February 23, 1984, and issued Amendment No. 82 to Facility Operating License No. DPR-28 for the Vermont Yankee Nuclear Power Station. This application requested that the requirement for an Automatic Air Dump System be removed from Operating License No. DPR-28. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with your application.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class II fee (\$1,200) is appropriate since the change was administrative in nature. Therefore, you are requested to remit the sum of \$1,200 to this office.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by:
