Licensing Branch No. 4

Re: McGuire Nuclear Station
Docket Nos. 50-369, 50-370
Generator: Time Overcurrent Protection

Dear Mr. Denton:

This letter is in response to a request by the NRC staff to clarify a license amendment request regarding Generator Time Overcurrent Protection for the diesel generators at McGuire Nuclear Station. This license amendment request was made on August 31, 1984 and seeks approval to implement only the Generator Time Overcurrent Protection. A related modification is planned to install an Instantaneous Overcurrent Protection, however this modification is not included as part of this amendment request.

Please contact us if there are further questions regarding this matter.

Very truly yours,

H. B. Tucker

Hal B. Tucker
