FEB 12 1985

Docket Nos. 50-338  
and 50-339

Virginia Electric and Power Company  
 ATTN: Mr. W. L. Stewart  
 Vice President - Nuclear Operations  
 Post Office Box 26666  
 Richmond, Virginia 23261

Gentlemen:

By letter dated December 21, 1984, the Division of Licensing (DL) staff informed your Company of their approval of your application dated August 20, 1982 and issued Amendment Nos. 61 and 45 to Facility Operating License Nos. NPF-4 and NPF-7 for the North Anna Power Station Unit Nos. 1 and 2. This application proposed certain Technical Specification changes relating to spent fuel pool storage capacity. A Class III fee (\$4,000) and a Class I fee (\$400) were remitted with your application pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class IV fee (\$12,300) and a Class I fee (\$400) are appropriate since the review involved several safety considerations (see SER issued with Amendment Nos. 61 and 45) and a duplicate unit. Therefore, your Company is requested to remit the additional sum of \$8,300 to this office.

Sincerely,

*RS*

Reba M. Diggs  
 Facilities Program Coordinator
