Docket Nos. 50-518, 50-520, 50-566  
and 50-567

Tennessee Valley Authority  
ATTN: Mr. H. G. Parris  
Manager of Power  
500A Chestnut Street - Tower II  
Chattanooga, Tennessee 37401

Gentlemen:

By letter dated August 16, 1984, we informed the Authority that the sum of \$3,200 was due for your application dated January 21, 1983. This application requested an extension of the construction completion dates for CPPR-150 and CPPR-151 for the Hartsville Nuclear Plant Unit Nos. A1 and A2 and for CPPR-172 and CPPR-173 for the Yellow Creek Nuclear Plant Unit Nos. 1 and 2. Subsequently, cancellation of these facilities was announced.

It has been NRC policy not to assess fees for an application filed prior to June 20, 1984, when no review has commenced on the application prior to the time it is determined that the application is no longer needed or is withdrawn. However, if review has commenced as it did on your January 21 application, fees are assessed in accordance with the fee provisions of 10 CFR 170.22 of the March 23, 1978 regulations. The Office of Nuclear Reactor Regulation staff has informed us that review had commenced on your January 21 application (as evidenced by the February 17, 1983 letter from A. Schwencer to L. M. Mills) prior to cancellation of these facilities. Therefore, the previously requested \$3,200 is appropriate and should be remitted to us for your January 21 application.

Sincerely,

*RS*
