June 13, 1973

Mr. Donald J. Skovholt
Assistant Director for Operating Reactors
Directorate of Licensing
United States Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. Skovholt:

Subject: Oyster Creek Station
Docket No. 50-219
Personnel Exposure Data

This letter is in response to your request of April 13, 1973 for supplemental radiation exposure information.

Attached hereto are exposure tabulations for plant and contractor personnel engaged in employment at Oyster Creek Nuclear Generating Station for January 1, 1970 through December 31, 1972. Unfortunately, our record keeping practices did not include the maintaining of personnel exposures for specific assignments (i.e. routines, special maintenance, refueling activities, etc.). In order to assist you in obtaining the information you need for your intended objective, we have tabulated the exposures for specific plant groups (maintenance, operation, technical) and listed exposure by quarter.

We hope this report is beneficial in your evaluation of radiation exposures to plant personnel during active nuclear plant operation.

Very truly yours,

Donald A. Ross
Manager, Nuclear Generating Stations
