SUBJECT: CHANGES TO THE ARKANSAS NUCLEAR ONE EMERGENCY PLAN,
REVISION 21

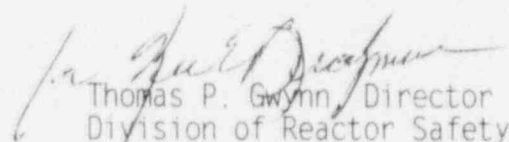

We have received your submission of Revision 21 to the Arkansas Nuclear One Emergency Plan, dated February 28, 1996. These revisions were submitted pursuant to 10 CFR 50.54(q) and 10 CFR 50.4; and incorporated the following changes:

- (1) Changed and deleted Emergency Action Levels (EALs) as set forth in NRC Office of Nuclear Reactor Regulation, Emergency Preparedness and Radiation Protection Branch, "Emergency Preparedness Position (EPPOS) on Acceptable Deviations from Appendix 1 of NUREG-0654 based upon the Staff's Regulatory Analysis of NUMARC/NESP-007, 'Methodology for Development of Emergency Action Levels,' " dated June 1, 1995;
- (2) Replaced Russellville Fire Department with England Fire Department as primary offsite fire fighting support; and
- (3) Other administrative/editorial changes.

Our review determined that the changes are acceptable and do not appear to degrade the effectiveness of your emergency planning at the Arkansas Nuclear One facility.

Should you have any questions concerning this letter, please contact Mr. Arthur D. McQueen at (510)975-0241.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
