

Jersey Central Power & Light Company  
 Attention: Mr. R. H. Sims,  
 Vice President  
 Madison Avenue at Punch Bowl NW.  
 Morristown, N. J. 07960

Docket No. 50-219

References: Your letter dated May 22, 1973  
 In response to our letter dated April 26, 1973

Gentlemen:

Thank you for your letter informing us of the action you have taken to correct the violations we brought to your attention following our recent inspection of your licensed program. It should be noted that even though the Environmental Program, as identified in Table B-II-1 of the Oyster Creek Technical Specifications, was first incorporated into the Technical Specifications on November 5, 1971, a similar commitment for the Environmental Program was made in Table II-6-1 of the Oyster Creek FSAR which was submitted on January 25, 1967. Your corrective action will be verified during our next inspection of the Oyster Creek Environmental Program.

In accordance with Section 2.790 of the AEC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the AEC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reason on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.
