CHANGE IN OUR LIST OF NAMES/ADDRESSES/CONTACTS OF LICENSEES -
OPERATING REACTORS

The attached copy of a letter sent to HQ by E. H. Sims, Vice President of Jersey Central Power & Light Company - Subject: Oyster Creek Nuclear Generating Station, Docket No. 30-219 - is self-explanatory. Please make sure that your records reflect the correct title for Mr. I. R. Finfrock, Jr., Vice President - Generation. Our past records indicate his title to be Vice President of Power Generation - this should be changed.
