)	
(Comanche Peak Steam Electric)	
Station, Units 1 and 2))	

APPLICANTS' OPPOSITION TO CASE'S MOTION
FOR REFERRAL OF THE RON JONES INCIDENT
TO THE NRC'S OFFICE OF INVESTIGATIONS

Citizens Association for Sound Energy ("CASE") has moved this Board to refer to the Office of Investigation ("OI") what CASE calls the "Ron Jones incident." This request is inappropriate for at least three reasons.

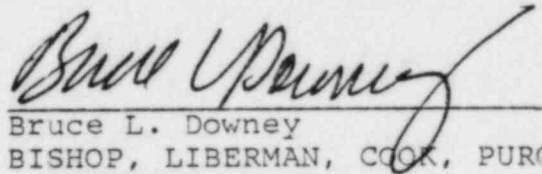

First, the subject matter of the Ron Jones incident does not relate to the issue pending before this Board: whether there was pervasive harassment and intimidation at Comanche Peak. At the time the "incident" occurred, Mr. Jones was not employed at Comanche Peak and he had not been so employed for some time. In light of this fact, CASE's effort to raise this matter is nothing more than another attempt to divert attention from the issue at hand, and the motion must be denied.

Second, no action by this Board is required to bring the matter to the attention of OI. Indeed, CASE has demonstrated time and again that it is perfectly capable of raising matters with OI without the assistance of the Board.

PDR

Third, and most importantly, the motion is based on nothing more than CASE's speculation about Applicants' motives, which speculation is directly contradicted by Applicants' interrogatory answers about the matter. Given the Board's extraordinary step of permitting CASE to serve interrogatories concerning this matter and full and complete responses provided by the Applicants, CASE's motion should be denied, and the matter should be put to rest.

Respectfully submitted,

Bruce L. Downey
