February 13, 1985

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Mr. James G. Keppler  
Regional Administrator  
Region III  
U. S. Nuclear Regulatory Commission  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Dear Gentlemen:

Enclosed is a report of the "Results of Quality Programs for Construction of Clinton Power Station" which has been prepared by Illinois Power Company. This report is being submitted for your information and to provide you with an additional basis for licensing and regulatory decisions involving Clinton Power Station.

The purpose of this report is to demonstrate that there is reasonable assurance that, as built, Clinton Power Station can and will be operated without endangering the public health and safety. To this end, the report contains a description and a summary of the results of several quality-related programs and activities at Clinton Power Station, including the quality assurance program, the recovery programs, programmatic improvements, the Overinspection Program, the Record Verification Program, and general assessment and corrective action activities.

If there are any questions or comments concerning this report please contact me or Mr. Steve Perry, Manager - Nuclear Program Coordination.

Sincerely yours,

B. P. Hall  
Vice President

DPH/jb
