Subject: Virgil C. Summer Nuclear Station
Docket No. 50/395
Operating License No. NPF-12
Radiation Emergency Plan

Dear Mr. O'Reilly:

As required by 10CFR50.54(q), South Carolina Electric and Gas Company (SCE&G), acting for itself and as agent for South Carolina Public Service Authority, submits two (2) copies of Revision 14 to the Radiation Emergency Plan.

Revision 14 reflects changes in personnel for the onsite and offsite emergency organizations and on-shift staffing requirements for Shift Technical Advisors (STA). The revision to the STA on-shift staffing requirements reflects and meets the staffing requirements found in the Technical Specifications for the Virgil C. Summer Nuclear Station. This revision, which has been reviewed by the Plant Safety Review Committee, does not decrease the effectiveness of the Radiation Emergency Plan to meet the standards of 10CFR50.47(b) and Appendix E.

If you have any questions, please notify this office.

Very truly yours,

O. W. Dixon, Jr.
