Docket No. 50-363

Gentlemen:

This refers to the inspection conducted by Mr. Heishman and Mr. Hayward of this office on June 29, 1971, of activities relating to your quality assurance program for the proposed Forked River facility, Docket No. 50-363, and to the discussions of our findings held by Mr. Heishman with Messrs. Avers and Heward of your staff on July 23, 1971.

Areas examined during this inspection included the quality assurance programs of your service company, the GPU Service Company, and their major contractors. Specifically, our inspectors examined instructions and procedures to be utilized for: design review, procurement, equipment and services, and audits. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by our inspectors.

No items of nonconformance were identified during the inspection. However, we understand that you are considering providing additional guidance to site receiving inspectors regarding the acceptability of documentation certifying that material and equipment arriving at the site conforms to purchase documents. We will examine this area during future inspections.

No reply to this letter is necessary; however, should you have any questions concerning this inspection we will be pleased to discuss them with you.

Very truly yours,

9604160279 960213
