Technical Specification Revision to Implement Revised 10
CFR 50 Appendix J; Supplement

By letter dated January 12, 1996, Duke Power requested a change to Technical Specification 4.6.1.2, to incorporate new regulations relative to containment leakrate testing. Subsequent discussions with the NRC Staff have identified minor wording changes that the Staff feels would better meet the intent of the proposed changes. Accordingly, attached are revised replacement pages which reflect the requested changes.

If any additional information is required, please call Scott Gewehr at (704) 382-7581.
